Destiny

A Comfortable White
Light neutrals used together create a feeling of spaciousness. Subtle patterns in counters and back splashes can spice up the room's personality and here, under-cabinet lighting adds a flicker of life.

Destiny

Double Up

Large rooms are a great opportunity for dark colors and oversized pieces. Two islands offer workspace for two and extra tall cabinets grant a bold presence and more storage. Add a touch of art glass to lighten the highest areas.

Liberal with Lines

If clean is your thing, the sleekness of glossy cabinets, shimmering stainless steel, crystal-clear glass and smooth, shiny surfaces just might brighten your day. Cabinets that glow, see-through pantries, exposed dishes, and a floating TV, help give shape to the untarnished reputation of this room.

Destiny

*Small Space,
Big Storage*

Use your space wisely with floor to ceiling pantries and oversized drawers. Glass doors and shelves add light and break up solid colors. Put cabinets in random places for extra storage like the tambour appliance garage under the hanging pots and the flip-up-door cabinet beside the microwave.

Destiny

Southern Charm

Rich wood, fluted columns, dentil molding and an intricate soffit and moldings merge into classic southern charm with special curves that mimic the unique architecture of the entryway. Recessed lighting in the soffit softens the mood.

Destiny

Canvas of Cabinets
Cabinets don't have to be the focal point. They can provide a beautiful backdrop, showcasing other features like the bold clock and the blown glass pendant lighting here. The frosted glass doors on the top cabinets artistically display of a parade of white pitchers.

Let In The Sun!
Natural light is a great opportunity to add warmth and brightness to your kitchen. Choose sleek, reflective surfaces like these glossy, apple green counter tops and stainless appliances to add sparkle around the room. Replicate that in other areas with glass-door cabinets and under-cabinet lighting.

Richmond II, Maple, Natural. Designer: Jorge A. Martinez, CKD. Designer Kitchens LA.

Destiny

Distinct Spaces
Define spaces by contrasting colors. Richly stained cabinets and island next to this light, airy dining room outline two distinct rooms in one space. Window mullions stained to match the cabinets and butcher block countertop add a little extra interest.

Breckenridge, Truffle. Designer: Robert Gluskin. Atlantic Kitchen and Bath.

Crowning Achievement

The stacked silhouette of these wall cabinets presents a chicness, heightened by the use of contrasting Beach White and Stone together. Glass doors add even more dimension while flip-up doors smarten the overall effect. The stainless farm sink flanked by decorative posts and hefty farm-style island anchor this perky room.

Destiny

Fun and Functional

Add a splash of personality to the simplicity of Shaker cabinets with a curved island countertop, glass pendent lights and complimenting tile. Hide your dishwasher behind a matching appliance panel and enjoy two sinks—a farm sink for big loads and an island sink for convenient food prep.

Destiny

Surrounded

This expanse of all-matching cabinets wraps around this room, visually gathering family and friends toward the oversized island granting good food and fellowship. The outdoorsy colors are as down-to-earth as you'd expect the conversation to be.

Destiny

Stickley Wide, Cherry, Amber and Wenge. Designer: Pam Meyer-Green, CKD. G.M. Roth Design.

Bold Combinations

An artful combination of black and cherry capped with a generous molding speaks to personal style. Textured glass in the top cabinets, leaded glass in the window and the tinted-glass flyover bar top on the island gracefully tame some of the boldness.

Destiny

*Yesterday and Today

Stretch Out

There's a lot of design in this kitchen: multi-level surfaces, recessed cabinets, and contrasting soffit colors... But it is all visually held together by a sleek, endless counter top and a simple door style. The length of the counter accentuates the open spaces and begs for party!

Liberty, Maple, Beach White. Designer: Colleen Eckdish. Showcase Kitchens.

Smart Space

Small room? Stick with light tones for an open feel and take the moldings all the way to the ceiling. An island offers additional elbowroom and there's still enough space to add your own flair like decorative columns and corbels, and glass doors to show off pretty glassware.

Opposites Attract

This large great room/kitchen combo is friendly and bright, even though its colors are as opposite as day and night. The kitchen isn't defined by walls, but by darker, stylishly understated cabinets. The transition from living area to kitchen is upholstered bar chairs on the "lighter" side of the island and a crisp, white counter top.

Breckenridge, Maple, Beach White and Cherry Amber. Designer: Mary Porzelt. Boston Kitchen Distributors.

Pretty, Quiet

Dishwasher and refrigerator appliance panels that match the cabinets help the room surround you in a clean, calm, crispness. Complimenting granite countertops and wood flooring soften the presentation. Clever skinny spice cabinets on either side of the cook top minimize clutter and maximize convenience.

Destiny

So Organized

Accommodate everything including the kitchen sink with floor to ceiling cabinets, large drawers, cute, little drawers and open shelves for display-worthy items. Oh, and an island with more drawers and shelves and a recessed microwave. Now, where is that colander?

Strut Your Stripes

Exotic veneers are a wonderful way to step outside décor boundaries. Go wild or keep it tame like this space with neutral colors, coordinating countertops and stainless hardware. An island that doubles as a dining bar respects the small kitchen while refrigerator panels keep the look tidy.

Destiny

Mix and Mingle

Frame-style doors with glass inserts and finished interiors topped with substantial crown molding bring out a traditional feel while stainless appliances and accents keep it all feeling very modern.

Adriatic, Gloss Silver and Shaker Wide, Maple, Bordeaux. Designers: Katie Bacon Ewell and Leslie Greenblatt. Kitchen Design Concepts.

Slimline Aluminum and Acrilux, Linear Bronze and Ice. Designer: Shuky Conroyd, AKBD. Boca Kitchens.

Charismatic

Stained wood Shaker Wide cabinets are right at home in this kitchen with wood beams but the Gloss Silver cabinets mix in a little shine and novelty. Put an island in the middle with cool stainless legs, hang fun party pendant lights and enjoy a feel-good space.

The Future Is Bright

Light doesn't have to come only from fixtures. In this super-modern space featuring the light-colored sleek surfaces of Engineered Stone countertops, stainless steel appliances and ultra sleek cabinets, reflections flood the entire room with divine brightness, while the warmth of a wooden floor keeps you anchored in the moment.

Destiny

Richmond II, Cherry, Bordeaux and Stainless Steel. Designer: Pam Meyer-Green, CKD. G.M. Roth Design.

Entertaining Kitchen

Cherry finish and black and stainless steel highlights come together with high-gloss tile and crackle-glass pendant lights for an elegantly affluent ambiance. Open shelving helps lighten the richness of the cabinetry. A gorgeous marble bar, and seating for eight invites everyone to the party.

Destiny

Farm-esque

This kitchen's modern conveniences are nestled in a farm house feel with creamy colors, artisan-looking cabinets with slightly worn finishes, wide moldings, open shelving, and a work island butted right up to a round table begging for company, coffee and pie.

Destiny

Simplicity Works

It doesn't get much more modern than this. Dark countertops with aluminum cabinets feature the sleekest of silhouettes. Shelves provide a visual break in the surrounding clean lines and the subdued color presentation is calm and relaxing.

Destiny

Light and Bright

The simple, crisp white cabinets allow you to use the walls as your canvas. Show off your artistry with bold colors and patterns in paint and tile. Fresh any way you look at it.

Destiny

Cellini, Gloss Birdseye. Designer: Gary Labrocquy. Artistic Interiors.

New Dimensions

Even with just a dual-tone color arrangement in cabinets and countertops, you can create a lot of interest in your kitchen. The triple-hutch that stair-steps upward and outward and wall cabinets of varying heights take this contemporary design up a notch.

Destiny

Home Chef

Stainless Steel appliances and accent cabinets liven up this chef's dream kitchen. Toe kick lighting and interior cabinet lighting add ambience and polish. Notice the granite "landing zone" shelf above the ovens. Out with the pizzas!

Adriatic, Horizontal Wenge. Designer: Erica Caserta, AKBD. Showcase Kitchens.

Shine On

Acrilux is the ultimate contemporary door style. High-gloss acrylic cabinet surfaces with aluminum-looking trim and hardware, and high-tech appliance are all the excitement this kitchen needs.

Destiny

Kitchen Camo

An authentic stone pizza oven, natural granite countertops, and a camouflaged refrigerator makes it look like you'd rather live outside. But that state-of-the-art stove and wine cooler, all capped in pretty dentil molding, clearly show you want options.

Brunswick, Cherry, Amber. Designer: Michael Moscaritolo. Windsor Architectural Woodworking.

Destiny

Understated and Soothing
Choose a soft, understated palette to create a soothing space. Allow cabinets to melt quietly into the background by painting walls the same color. Add subtle features like recessed cabinets, glass doors and a farm sink for a personal appeal.

Destiny

Working Late?
This office/guest room offers ample storage and shelving, a desk and plenty of room to think...once you fold the bed into the wall. Just choose your style carefully since you may be here day and night!

Modern Mode

This gleaming contemporary kitchen features an artful collection of cabinets and a prominent island. Long lines and sharp angles are everywhere while moldings are absent. An innovative space flooded with light and beautifully tempered with soft, rich color.

Venezia, Buttermilk with Caramel Patina. Designer: Erica caserta, AKBD, Showcase Kitchens.

Claim Your Space

You don't have to confine your kitchen to the walls that exist. You can use cabinets to define the space. For instance, make a wall by floating cabinets above an island or turn a corner with your cabinets to take advantage of space outside the obvious kitchen area. And just because it's a kitchen, doesn't mean it isn't also an office.

Vision

Venezia, Buttermilk with Caramel Patina. Designer: RHouse Kitchen & Bath

Big But Cozy

Large rooms can be as cozy as small ones. An oversized hutch made of multiple cabinets adds charm and an overachieving island provides workspace, a sink, a dining bar and storage galore. The warm paneled cabinets and humble fixtures make a generous area feel like home.

Unexpected Elegance

This kitchen is gorgeous because of its nuances—traditionally styled cabinets with contemporary black countertops and contrasting cabinet molding. Spritely mullioned glass doors, and a floating stainless steel range hood keep everything airy and open.

Define Your Space

If you don't have walls, use a curved island to help shape the space called "the kitchen." And if that's not enough, add dark dining stools and a subtle floor-tile boundary. End cabinet panels also help finish out an area. Psst...isn't the drawer under the stacked oven, cool?

Budget Saavy

Vision's Tuscany in Amber Cherry with Auburn Patina is the perfect look for today's traditional or transitional kitchen. And because Vision is value-priced, you can add extra features with all the budget left over.

Simple Backdrop

Serene, honorable, unmarred, demure cabinets make a great backdrop for other kitchen features. Spruce up with sassy, silver accents and an alternative countertop.

Vision

Fun and Functional
Combining your storage and function needs not only saves space, but notches up the fun factor. This dining area features benches with built-in storage beneath. And the bench's high back creates a multi-level surface above the sink in the adjacent kitchen. And never underestimate the value of an oversized island.

Vision

Mid-Modern

The classy combination of warm wood tones and black accents creates an exquisite kitchen with contemporary touches like the stainless hardware and appliances and the modern-styled pendant lights. The textured glass cabinet doors and silvery wall treatments mix in a little metro.

Roma, Honey Maple. Designer: Kitchen & Bath Design Consultants

Room to Room

Cabinets can help bring cohesiveness to open floor plans. What works in the kitchen coordinates with the custom hutch-like unit that wraps around the corner of the living area. Black and frosted accents create a flair of sophistication and metal legs scream of retro NYC apartment living.

Destiny

Baths

Outline Your Presentation
 While the walls and the drawer fronts are dark, the cabinets really stand out because they're surrounded by white. The sleek hardware, floating glass shelving and unframed mirror offer a modern presentation that flows nicely.

Destiny

Simple Luxury
Soak your troubles away in this traditional bath, elegantly outfitted with dark wood, fluffy towels and a river rock countertop.

Destiny

Warm and Cool

A small bathroom can be overtaken by cool, hard materials like ceramic tile and glass. Making the shower walls transparent opens the space and natural, warm Bamboo cabinets bring in softness and comfort.

Pomp and Pampering

This upscale look features a warm wood stain and dark glaze for depth. Glass doors make tall overhead cabinets feel as light as fluffy towels. A towel warmer and sit-down vanity nook are an invitation to pamper yourself.

Destiny

Bright and Warm
The casual feel of painted beadboard-inspired cabinets creates a laid-back environment warmed by buttery yellow walls. Light colors keep this space feeling more..., well, spacious.

*As Simple As It Gets
Understated, uncomplicated,
uncolored. Unbelievably perfect.*

Rich And Inviting
The rich, heavy feel of ornate cabinetry can be toned down with light and color like the marble counters, back splash, pretty sconces and wall color here. The arched valences and counter silhouette offer a posh softness to the space.

Reflections of Tranquility
Soap or body wash? Bath or shower? Calm, quiet colors and mild décor make relaxing effortless... no matter which side of the bathroom you prefer.

Vision

Squared Away
The deep color and geometric styling of this vanity allude to a metropolitan influence. Take a seat on the drawer bench while you slather on the moisturizer.

Hide-Away
Closet storage should be just as beautiful as the cabinets in the rest of your home! Keep stuff organized and tidy even if it is behind closed doors.

Catch-All Cabinets
The laundry room always ends up hosting more than color-sorted clothes. Household cleaners, messy brooms, tangled hangers and stuff that just doesn't fit anywhere else. But if you have cabinets, suddenly it's all okay.

You Can Never Have Too Much Storage

Wow. Wall to wall, floor to ceiling cabinets. White cabinets, wood cabinets, tiny cabinets way up high, glass-door cabinets, flip-up door cabinets, crowned cabinets, countered cabinets, corner cabinets. Even the refrigerator looks like a cabinet.
